Claim 15 (line 1): Change "machine" to --computer--.

Allowable Subject Matter

3. Claims 1-9, 11-16 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: A map display device for retrieving a point at an inputted address is disclosed where a plurality of input addresses of previously retrieved points based on a hierarchy of levels of administrative districts is stored and displaying a menu of hierarchy of levels of administrative districts for the input of a different address by selection of any arbitrary

level within a displayed hierarchy of levels. Moreover, the prior art indicates that this particular device is novel and has not been published or patented by other entities.

In addition, the specification discloses a map display disposed on a personal computer, a portable telephone, or a navigation device that comprises a processing unit that stores and retrieves data, and includes programs. The language in the specification is functional equivalent language to the claim limitations of claims 14-16 (a computer-readable medium encoded with a computer program).
